PROFESSIONAL SUMMARY

Design executive with 15+ years leading high-performance product design organizations at global scale. Track record of transforming design from execution layer into strategic infrastructure — building design systems, DesignOps frameworks, and AI-first product experiences that deliver measurable business outcomes (Revenue, Retention, Conversion). Expert in evolving enterprise UX into adaptive, AI-ready systems that manage behavioral complexity at scale. Spanish passport holder. Immediately available for relocation to Spain.

CORE COMPETENCIES

- Product Design Leadership · Design Systems & Governance
- DesignOps at Scale · AI-Driven UX & Automation
- Digital Transformation · User Experience Strategy
- User Research at Scale · Agile & Lean UX
- Stakeholder & Executive Management · Business & Product Strategy
- Data-Informed Design Decisions · Team Building & Mentorship

PROFESSIONAL EXPERIENCE

TATI.LA

Co-Founder & Head of Product Design

2025 – Present

- Co-founded an AI-powered translation platform for specialized professional workflows — designed for quality assurance, human oversight, and trust in AI-generated output.
- Designed the full product experience — from onboarding to AI output validation — applying trust-first UX principles for human-AI collaboration.
- Defined product strategy, brand identity, and go-to-market positioning as a founding team member.

Key areas: *AI Product Design, Trust UX, Product Strategy, Co-founder*

THE BIRDIE CLUB

Co-Founder & Head of Product Design

2025 – Present

- Co-founded and shipped an AI coaching platform: a golf instructor's digital twin that delivers personalized coaching to thousands of students while preserving his methodology and voice.

- Designed the full product experience and orchestrated development using an AI-augmented harness (Lovable, Claude Code), shipping a production-ready product with no traditional engineering team.
- Live since launch: 38 paying founding members across 5 countries with zero paid advertising, 244 activations from a 1,862-person waitlist, zero critical failures at launch.

Key areas: *AI Product Design, Zero-to-One Development, Founder-Led Product Strategy, Community-Led Growth*

TELEPERFORMANCE (TP)

Senior Global Director of Design

March 2022 – November 2025

- **Led the integration of GenAI Design into global product workflows, reducing operational time-to-market by 25% through automation of repetitive design patterns and AI-assisted component generation.:** AI-First Transformation
- **Evolved the global design system into an "Adaptable Systems" architecture — implementing dynamic containers and conversational scaffolding to support generative interfaces and context-aware content at enterprise scale.:** Next-Gen Design Foundations
- **Orchestrated the global Product Design organization across distributed markets (LATAM, Europe, India), ensuring brand and UX coherence under an OKR-driven efficiency model.:** Design Ops at Scale
- **Established data-informed decision frameworks that aligned product vision with measurable operational cost savings across the TP internal tool ecosystem.:** Strategic Governance

Key areas: *UX Strategy, Product Design Leadership, Design Systems, DesignOps, AI-Driven Automation, Research Governance*

GLOBANT

Senior UX Designer / Technical Leader

October 2020 – February 2022

- Technical UX Lead for DIRECTV Latin America digital transformation — defining end-to-end experience strategy across web and connected TV platforms.
- Member of the Account Steering Team, contributing to strategic delivery decisions and client executive relationships.
- Career leader and mentor for 7 designers across UX, visual, and research disciplines.
- Promoted cultural transformation through UX within agile delivery environments.

Key areas: *UX Leadership, Research Strategy, Stakeholder Facilitation, Team Mentorship*

ZINOBE SAS

Head of Product Design

December 2019 – August 2020

- Led product design strategy for a fintech credit platform processing over 1 million loan disbursements — optimizing the acquisition funnel through continuous experimentation and A/B testing.
- Transformed manual, fragmented credit decision flows into a unified digital platform, reducing onboarding friction and improving conversion at top-of-funnel.

Key areas: *Fintech Product Design, Funnel Optimization, A/B Testing, Conversion*

BBVA COLOMBIA S.A.

UX & Design Manager

May 2016 – December 2019

- **Acted as the highest-ranking design leader for BBVA in Colombia, managing end-to-end design strategy and execution across the full digital portfolio — mobile app, transfers, FX banking, public website, and investment products.:** Design Authority
- **Led the redesign of the core transfers experience (760,000+ operations/month), reducing transaction time by 23% (2:03 → 1:35 min) and increasing emotional satisfaction score — validated with 135 users.:** Transfers Redesign
- **Designed the 100% digital onboarding for investment fund products; 80% of fund contracts are now completed through the mobile channel.:** Digital Investment Fund
- **Transformed international money transfers from a multi-hour office process into a mobile-first, document-free experience — agile, transparent, and self-sufficient.:** FX Mobile Banking
- **Founded and implemented the program (125+ members), scaling a user-centric culture across the organization and positioning design as a primary economic driver.:** Design Ambassadors Program
- **Led design across the full BBVA Colombia digital ecosystem — recognized with "Best Mobile Bank in Colombia" (2019) and Accenture Innovation Awards in Financial Services (2017–2018).:** Award-Winning UX

Key areas: *Banking UX, Mobile Product Design, Design Leadership, Enterprise Design Strategy, Cultural Transformation*

PLASTICOLAB / LEO BURNETT COLOMBIA

UX / Information Architecture Lead

May 2013 – March 2016

- Led UX and IA strategy for regional and global brands across FMCG, finance, and entertainment industries.
- Defined and executed end-to-end user experience processes from discovery to delivery for major agency accounts.
- Facilitated multidisciplinary teams: design, development, QA, and strategy.

ZEMOGA S.A.

Senior Project Manager

August 2012 – December 2012

- Led multidisciplinary digital production teams (15+ professionals) for large-scale digital projects including SeaWorld.
